NEWSTART

Precision transmission system solution - professional production service provider

Newstart focuses on user needs and provides more convenient and systematic precision transmission solutions for the industry. We provide customized components, complete machines, and supporting systems for industry customers, and an open platform provides customers with a wide range of convenience and possibilities. Provide excess value to partners and customers. **Welcome to the world of precision transmission at NEWSTART.**

Precision transmission, contact the world!

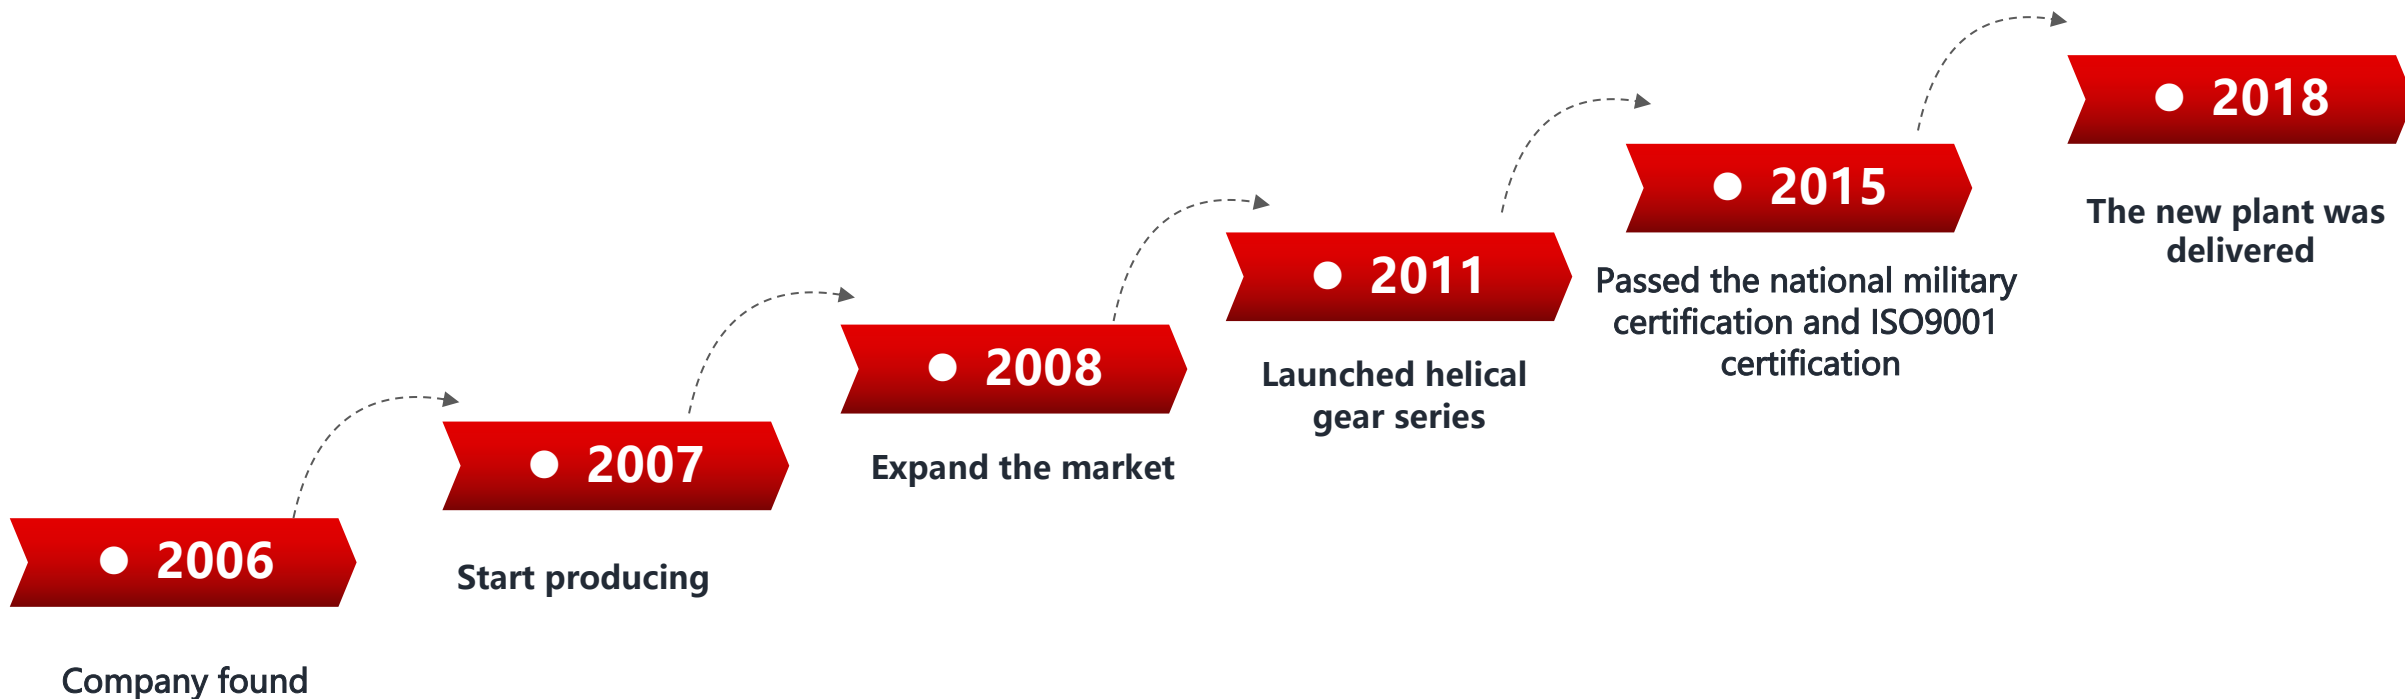

- 2021 National Level Specialized, Refined, and New "Little Giant" Enterprise
- Shandong Provincial Enterprise Technology Center
- Member of the China Robotics Industry Alliance
- Expert consultant to the council unit of Shandong Robotics Industry Technology Innovation Strategic Alliance
- Shandong Province Intelligent Factory and Digital Workshop
- Top 100 Industrial Enterprises in Zibo City

■ Newstart Planetary Gear Boxes Co., Ltd. is a key incubation project in Zibo National High tech Development Zone, one of the top 100 industrial enterprises in Zibo City, a hidden champion in the industry in Shandong Province, and a national specialized, refined, and new small giant enterprise.

Newstart products are widely used in industrial robots, mobile robots, CNC machine tools, workbenches, intelligent equipment, and automated production lines. The market share of the product ranks first in China and is exported to countries and regions such as the United States, Japan, South Korea, Iran, and the European Union.

Established on 7th July 2006, Newstart has become the most significant and leading precision planetary gearbox brand in China.

Newstart currently has fixed assets of **350 million yuan**, of which fixed asset equipment investment is nearly **180 million yuan**.

We have introduced **over 250 sets** of high-end CNC machining equipment, equipped with a complete range of processing and testing equipment with advanced functions and national machinery,

For example, there are more than 250 sets of equipment, including MITSUBISHI six axis five linkage CNC spiral gear shaping machine, CNC spiral gear drawing machine, Japan's Makino horizontal four axis machining center, Germany's Emac gear turning machine, Hamai N60 gear hobbing machine, Japan's HAMAI five axis four linkage secondary tool setting CNC gear hobbing machine, Taiwan's GOLDWAY six axis four linkage high-speed car milling composite center machine, the United States' HURCO four axis machining center, Germany's Zeiss coordinate measuring machine, Klinberg gear measurement, etc, The equipment import rate reaches **over 90%**

Factory environment

Workshop environment

- Assembly inspection production line
- Intelligent warehousing and logistics line
- Parts warehouse
- Machining production workshop
- Complete machine inspection equipment
- Gear processing production workshop

Precision planetary reducer

PRODUCT SERVICE

- **Newstart Core Products**
- Full model coverage of product structure
- Leading brand of domestic planetary reducer
- A professional and professional development and sales team
- A comprehensive service team system

- Smaller
- More precise
- Stronger
- Impact resistance
- Longer lasting

Complete machine testing equipment and product quality assurance

**Comprehensive
performance testing
platform for the entire
machine**

**Whole machine durability
testing platform**

Complete machine testing equipment and product quality assurance

Whole machine operation testing platform

**Machine operation
noise testing room**

High and low temperature, damp heat test equipment

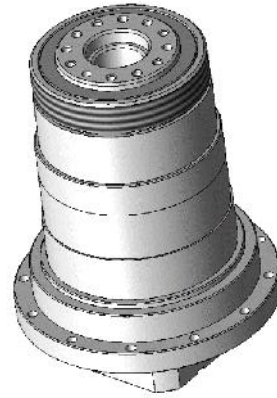

Professional precision assembly line production

CUSTOMER SERVICE

Customized solutions for special cases

Newstart has accumulated wide experience of customized solutions for different clients all over the world.

Planetary reducer - Business distribution

Business scope

Newstart brand has reached the other part of the world, including Europe and North America in particular.

2006
